

Circulating and Hydraulic Oils (R&O Type)

Product	Kin. Viscosity cSt at 40 °C	VI Min.	Flash Point COC, °C Min.	Description / Application
Servocirol 32	29 - 35	95	196	<p>Servocirol oils are premium quality R&O type hydraulic oils formulated with superior quality hydro treated base stocks. Servocirol meet IS:3098-1983 (Reaffirmed 2004), DIN-51524 H and HL (except for very low pour point) and US Steel 135 requirements. Servocirol 32, 46, 68 and 150 also meet Cincinnati Machines, U.S.A. specification P-38, P-55, P-54 and P-57 respectively. Servocirol oils are recommended for hydraulic system, circulation system of industrial gearboxes, air compressors requiring turbine quality oil and for plain and anti-friction bearings of turbo feed pumps, turbo blowers, etc. These Oils can be used for lubrication of intermittently operating turbo generator sets where oil is changed after short duration.</p>
Servocirol 46	42 - 50	95	200	
Servocirol 68	62 - 74	95	210	
Servocirol 100	90 - 110	90	210	
Servocirol 150	135 - 165	90	230
