

# HARYANA STATE BOARD FOR THE PREVENTION & CONTROL OF WATER POLLUTION

(Authorized to exercise the Powers and perform the functions under the Air Act, 1981 as well.)

No. WPCB/TAC/88/

Dated

To

The Director of Industries,  
Haryana, Chandigarh.

Sub:-

No Objection Certificate for laying underground  
product pipeline from Kandle to Khatinda in  
Haryana State.

.....

Sir,

It is submitted that M/s Indian Oil Corporation Limited, Refineries & Pipelines Division, 869, Kailash, 26 Kasturba Gandhi Marg, New Delhi, have applied for N.O.C. in this office. The case has been examined. Since, it is large scale industry the case has to be put up before the State Competent Authority for site clearance. ~~This Board has no objection to set up the project/industry~~ subject to the following conditions:

1. All the safety measures shall be implemented by the industry in accordance with the proposal submitted by unit, vide their letter dt. 5.1.88 and 9.9.88. These shall be got approved by the concerned authorities to ensure that the various provisions conform to the specified standards.
2. While unloading, pumping and or handling the petroleum products at various pumping stations in the State of Haryana adequate steps shall be implemented to prevent leakage of the petroleum products into the environment.
3. If any effluent is generated while handling or pumping the petroleum products at any of the stations on the pipeline route this effluent shall be treated to conform to IS-2496-1981 (for disposal into inland surface water) and the requisite consent for the disposal of the same shall be obtained from this Board.
4. The isolation valves shall be provided in the pipelines before and after crossing the river/canal/drain so that the segment of the pipe line across the river/canal/drain can be isolated in case of leakage to protect the pollution of water.
