Subject: Half yearly Report for the period of (1st October, 2021 to 31st March, 2022) for BGR INDMAX & BS-VI Projects

Dear Sir,

With reference to above, we are enclosing the Six Monthly Report for the period of 1st October, 2021 to 31st March, 2022 for your kind perusal. The reports are being sent as per EIA Rules'2006 on the "Environmental Clearances" issued by MoEF&CC to Bongaigaon Refinery (BGR), for "BGR INDMAX & BS-VI Projects".

Thanking you,

Yours faithfully,

(Biman Gogoi) CM (HSE) Ph: 9435122647

Half yearly Report for BGR INDMAX & BS-VI Project (1st October, 2021 to 31st March, 2022)

Submitted by:

Indian Oil Corporation Limited Bongaigaon Refinery

PO: Dhaligaon. District: Chirang. Assam

Details of the Project

IOCL, the energy of India is contributing the nation in its development by means of employment generation and through CSR activity. For the development of the nation as well as the company and for Environment protection, IOCL is adding new plant for environment friendly and value added product. IOCL, Bongaigaon Refinery has established a new unit, INDMAX for LPG maximization and BS-VI project for cleaner fuel.

To establish the new unit, EIA study was done by M/s ABC TECHNO LABS INDIA PVT. LTD, Chennai.

Based on the EIA study, IOCL, BGR applied for EC to MoEF&CC on 31/05/2015.

Going through all the process and formalities, MoEF&CC granted EC No. J-11011/48/216-IA-II (I), Dated: 19th April 2017 to IOCL, BGR to establish following projects:

Units Date of commissioning		
Refinery capacity enhancement from	30.04.2021 (after commissioning of	
2.35 MMTPA to 2.70 MMTPA	NHT Unit under BS-VI Project)	
INDMAX FCC Unit, 740 TMTA	07.11.2020	
	Prime G+ : 05.12.2020	
Prime- G+/ BS-VI projects (Including	ARU: 30.10.2020	
SRU, SDS/ARU)	SDS: 30.04.2021	
	SRU: under implementation	
DHDT capacity enhancement from 1.2	15.03.2020	
MMTPA to 1.8 MMTPA	10.00.2020	
HGU Revamp (Capacity enhancement	12.03.2020	
from 25 TMTPA to 30 TMTPA)		
CRU-MSQ Revamp	With the commissioning of Prime- G+/ BS-VI projects	
	Refinery capacity enhancement from 2.35 MMTPA to 2.70 MMTPA INDMAX FCC Unit, 740 TMTA Prime- G+/ BS-VI projects (Including SRU, SDS/ARU) DHDT capacity enhancement from 1.2 MMTPA to 1.8 MMTPA HGU Revamp (Capacity enhancement from 25 TMTPA to 30 TMTPA)	

Compliance/ progress report for the above projects are listed below:

BGR INDMAX & BS-VI PROJECTS: EC CONDITIONS, COMPLIANCE STATUS. EC Reference: J-11011/48/2016-IA-II (I) Dt. 19.04.2017

Monthly Status Report for the period (1st October, 2021 to 31st March, 2022)

INDEX:

SI. No	Conditions	Status	
1.	General conditions and Compliance status of MS Quality improvement Project.	Annexure- A	
2.	Six monthly Stack Monitoring/ Air Quality Data	Furnished in Appendix-A1	
3.	Six monthly effluent discharged Quality	Furnished in Appendix-A2	
4.	Tree Plantation Data	Furnished in Appendix-A3	
5.	Additional Information	Furnished in Appendix-A4	
6.	Fugitive Emission Data	Furnished in Appendix-A5	
7.	Annual return of hazardous waste	Furnished in Appendix-A6(a)	
8.	Authorization from PCBA under Hazardous and Other Waste (Management and Transboundary Movement) Rules 2016	Furnished in Appendix-A6(b)	
9.	Details of Waste water treatment and disposal system	Furnished in Appendix-A7	
10.	Quarterly Noise Survey Report.	Furnished in Appendix-A8	
11.	Status of Rainwater Harvesting	Furnished in Appendix-A9	
12.	Screen Shot of IOCL Website upload of report	Furnished in Appendix-A10	
13.	Organ gram of HSE Department	Furnished in Appendix-A11	
14.	NABL certificate of QC Lab of Bongaigaon Refinery	Furnished in Appendix-A12	
15.	Employees Occupational Heath Check up Status	Furnished in Appendix-A13	
16.	Flare system.	Furnished in Appendix-A14	

BGR INDMAX & BS-VI PROJECTS: EC CONDITIONS, COMPLIANCE STATUS. EC Reference: J-11011/48/2016-IA-II (I) Dt. 19.04.2017

Six Monthly Status Report for the period (1st October, 2021 to 31st March, 2022)

•	cial Conditions:	
EC SI No	Condition	Compliance Status
		Complied Total 19 nos of SOx, NOx, CO and PM analyzers have been installed in all 5 stacks of - 1. ATF Splitter re boiler 2. New NHT furnace 3. New SRU furnace 4. INDMAX Flue Gas Boiler 5. PrimeG+ two new furnace, Consent to Established Certificate issued by Pollution Control Board,
		Two roof top RWH scheme commissioned in the new project and Two more RWH scheme commissioned in Admn. Building and in BGR township temple complex during FY(2020-21) Details of setting up of green belt in different phases. (Phase-I & II) Phase-1: 10000 saplings planted in newly developed green belt area (Old debris yard area) during May-July 2017. Photograph of the green belt attached Details of plantation done in and around the complex, since 2017-18 Year 2017-18: 29600 nos of Sapling Year 2018-19: 30060 nos. of sapling Year 2019-20: 14340 nos. of sapling Year 2020-21: 25606 nos. of sapling Year 2021-22: 1,00,000 nos. of sapling(Inside the complex North side of the IndMax unit 11,500 sapling planted) Phase-2: After completion of the project, plantation will be continued in the following areas: (a) North/west side of the complex, in between LPG bottling plant and newly developed green belt area (b) Surrounding of PSF Building area (c) Downward direction and along road side of new project area: Plantation done in 2021-22. Uploading of EC compliance status report on the website is in practice.

EC SI. No	Special Condition	Compliance Status
(ii) Ambient air quality data shall be collected as per NAAQS standards notified by the Ministry vide G.S.R. No. 826(E) dated 16th September, 2009. The levels of PM10, PM2.5, SO2, NOx, VOC and CO shall be monitored in the ambient air and emissions from the stacks and displayed at a convenient location		Ambient air quality data & Stack emission monitoring data of the existing units are displayed at BGR Main gate. Configuration done for IndMax, Prime-G, NHT and DHDT ATF with central local server and integration completed with CPCB/SPCB end IndMax and Prime-G configured for rolling display at main gate. NHT & DHDT ATF configuration pending for rolling display at
	near the main gate of the company or at important public places. The company shall upload the results of monitored data on its website and shall update the same periodically. It shall simultaneously be sent to the Regional office of MOEF&CC, the respective Zonal office of CPCB and the state Pollution Control Board (SPCB).	main gate due to limitation of channels in existing rolling display. Up-gradation is under progress. IndMax, NHT and DHDT ATF is under maintenance. Service provider is working at site The results of monitored data are uploaded on IOCL website. Also half yearly status reports for the running units are submitted in the month of December and June to the Regional office of MoEF&CC, the Zonal office of CPCB and the State Pollution Control Board (SPCB).
(iii)	In plant control measures for checking fugitive emissions from all the vulnerable sources shall be provided. Fugitive emissions shall be controlled by providing closed storage, closed handling & conveyance of chemicals/ materials, multi cyclone separator and water sprinkling system. Dust suppression system including water sprinkling system shall be provided at loading and unloading areas to control dust emissions. Fugitive emissions in the work zone environment, product, raw materials storage area etc. shall be regularly monitored. The emissions	Fugitive emissions are monitored from all vulnerable sources (i.e. Glands, flanges etc) and rectification is carried out if leakage is observed. Quarterly fugitive emissions Survey is being carried out regularly in the work zone environment, product, raw materials storage area etc. and confirm the emission limits stipulated by as per SPCB norms. The quarterly reports for the period of 1 st October, 2021 to 31 st March, 2022 are attached as Appendix-A5. All liquid and gaseous products and chemicals are handled in the closed system. Water sprinkling system is being taken care off at loading
(;)	shall conform to the limits stipulated by the SPCB.	area to control dust emission.
(iv)	The project proponent shall take due care and adopt best practices to ensure that there is no oil spill. However, to meet with any unforeseen situation and combat the oil spill, the PP shall prepare the Oil Spill Disaster Contingency Plan in line with the provisions of the National Oil Spill Disaster Contingency Plan. Regular mock drills shall also be conducted.	Emergency Response & Disaster Management Plan (ERDMP) is in place at BGR and mock drills (on-site & off-site) conducted quarterly on various emergency scenarios. Last Off-site mock drill was conducted on 02/02/2022 in coordination with District Administration.

EC SI No	Special Condition	Compliance Status		
(v)	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution.	Complied The gaseous emission from DG set is dispersed through adequate stack height (3.0 Mtrs as per CPCB standards). However, DG set not available for new projects.		
(vi)	Total fresh water requirement from existing source shall not exceed 370m³/hr and prior permission shall be obtained from the Competent Authority. No ground water shall be used without permission.	requirement (ground water) from CGWA applied. Application No: 21-4/ 1306 /AS / IND/2021, dated: 21/04/2021.		
(vii)	Waste water shall be treated in ETP. The treated effluent water shall be reused as make up water for cooling tower and green belt development. No Effluent shall be discharged outside the plant premises.	 a. Waste water is treated in ETP. b. The treated effluent water is reused as make up water for cooling tower, Fire water network, housekeeping and horticulture. c. No effluent is discharged outside the plant premises. 		
(viii)	Automatic / online monitoring system (24 x 7 monitoring devices) for flow measurement and relevant pollutants in the treatment system to be installed. The data to be made available to the respective SPCB and in the Company's website.	Online Continuous Effluent monitoring system for flow measurement and relevant pollutants in the treatment system is available. On-line data is made available to CPCB and SPCB.		
(ix)	Adequate odour management plan and its mitigation measure to be implemented on priority.	Adequate odour management plan and its mitigation measure had been implemented along with the project.		
(x)	Regular VOC monitoring to be done at vulnerable points.	Occupational Health section is monitoring the VOC at different vulnerable areas in the Refinery on monthly basis.		
(xi)	The oily sludge shall be subjected to melting pit for oil recovery and the residue shall be bio-remediated. The sludge shall be stored in HDPE lined pit.	The oily sludge is processed in melting pit for oil recovery and stored in brick lined sludge lagoon. Oily sludge from lagoon is processed for recovery of oil regularly. A new third party is engaged for processing of the oily sludge & recovery of oil from the oily sludge stored in the sludge lagoon. During 1 st October, 2021 to 31 st March, 2022, 3280.82 MT of oily sludge has been processed by mechanised processing. The leftover residue is further bio-remediated before disposal.		
(xii)	Comprehensive water audit to be conducted on annual basis and report to the concerned Regional Office of MoEF&CC. Outcome from the report to be implemented for conservation scheme.	M/s EIL conducted a comprehensive water audit & final report submitted. Action plan formulated for implemented of short & long term conservation schemes.		

EC SI No	Special Condition	Compliance Status		
(xiii)	Oil catchers/oil traps shall be provided at all possible locations in rain/ storm water drainage system inside the factory premises.	Complied Oil catchers/ oil traps are already there in the existing storm water channel and have been installed in rain/ storm water drainage system in the new project. One additional oil catcher/oil trap system provided in rain/storm water drain along with project		
(xiv)	Hazardous chemicals shall be stored in tanks, tank farms, drums, carboys etc.	Complied Hazardous chemicals are stored in tanks and drums.		
	Flame arresters shall be provided on tank farm.	Complied Flame arrestors are installed as per design of tanks in tank farm.		
	Solvent transfer shall be by pumps.	Installation of transfer pumps is completed.		
(xv)	The by-products which fall under the purview of the Hazardous Waste Rules, be handled as per the provisions of the said Rules and	Poly Ammonium Sulfide (PAS) dosing facility has been implemented in INDMAX FCCU for mitigation of Cyanide in effluent water generated from INDMAX.		
	necessary permissions shall be obtained.	Regular testing for Cyanide in effluent is being done. If required, the same will be further treated in upcoming		
		effluent pre-treatment facility in future.		
(xvi)	The Company shall strictly comply with the rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals (MSIHC)	The rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) Rules, 1989 is complied.		
	Rules, 1989 as amended time to time. All Transportation of Hazardous Chemicals shall be as per the Motor Vehicle Act (MVA), 1989.	Transportation of Hazardous Chemicals is followed as per the Motor Vehicle Act (MVA), 1989.		
xvii)	The unit shall make the arrangement for protection of possible fire hazards during manufacturing process in material	Gas detectors with Hooters installed and commissioned in DHDT Revamp, HGU Revamp, INDMAX FCCU, Prime G+, NHT and ARU.		
	handling. Fire fighting system shall be as per the norms	Gas detectors installed and under commissioning in SRU. Fire fighting system installed as per OISD-STD-116 and commissioned.		
(xviii)	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	Complied. Occupational health surveillance of the workers are done on a regular basis and records maintained as per the Factories Act.		
	ACL	Details attached as Appendix-A13.		

EC SI No	Special Condition	Compliance Status
(xix)	At least 2.5 % of the total cost of the project shall be earmarked towards the Enterprise Social Commitment (ESC) based on local needs and action plan with financial and physical breakup /details shall be prepared and submitted to the Ministry's Regional Office. Implementation of such program shall be ensured accordingly in a time bound manner.	As per MoEF&CC guideline dtd. 1 st May 2018, ESC has been replaced with CER (Corporate Environment Responsibility). Expenditure incurred under CSR for the year: 2016-17: 304.84 lakhs 2017-18: 740.95 lakhs 2018-19: 960.00 lakhs 2019-20: 916.08 lakhs 2020-21: 184.66 lakhs Expenditure incurred under CER for the year: 2021-22: Rs 272.56 lakhs and total 738.56 Lacks till date against the project
(xx)	A regular Environment Manager, having post graduate qualification in environmental sciences/ environmental engineering, to be appointed for looking after the environmental management practices in the plant.	One executive from HSE Dep't has completed one year PG Diploma course on Env. Management from Tezpur University. He has been entrusted to look after the environmental management practices in the plant.
(xxi)	As proposed, green belt over 33% shall be developed within plant premises with at least 10 meter wide green belt (perennial trees) on all sides along the periphery of the project area, in downward direction, and along road sides etc. Selection of plant species shall be as per the CPCB guidelines in consultation with the DFO.	Details of setting up of green belt in different phases. (Phase-I & II) Phase-1: 10000 saplings planted in newly developed green belt area (Old debris yard area) during May-July 2017. Photograph of the green belt attached Details of plantation done in and around the complex, since 2017-18 Year 2017-18: 29600 nos of Sapling Year 2018-19: 30060 nos. of sapling Year 2019-20: 14340 nos. of sapling Year 2020-21: 25606 nos. of sapling Year 2021-22: 1,00,000 nos. of sapling in and around the
		complex (Inside the complex North side of the IndMax unit 11,500 sapling planted) Phase-2: After completion of the project, plantation will be continued in the following areas: (a) North/west side of the complex, in between LPG bottling plant a newly developed green belt area. (b) Surrounding of PSF Building area (c) Downward direction and along road side of new project area: Plantation done

EC GENERAL CONDITIONS:

EC SI No	Condition	Compliance Status
(i)	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board (SPCB) State Government and any other statutory authority.	Strict adherence to stipulations made by Statutory authorities complied along with project implementation.
(ii)	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment and Forests. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.	Noted.
(iii)	The location of ambient air quality monitoring stations shall be decided in consultation with the State Pollution Control Board (SPCB) and it shall be ensured that at least one station is installed in the upwind and downwind direction as well as where maximum ground level concentrations are anticipated.	Already four manual ambient air quality monitoring stations are there inside the complex and one in Town ship. One more continuous monitoring station is in BGR Township. Data from the same is being transmitted directly to CPCB/PCBA
(iv)	The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16 th November, 2009 shall be followed.	NAAQS issued by the Ministry is being followed & complied.
(v)	The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise level shall conform to the standards prescribed under Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).	Complied. Taken care during implementation of the project. Quarterly Noise Survey is being carried out regularly. Quarterly Reports for the period of 1 st October, 2021 to 31 st March, 2022 are attached as Appendix-A8
(vi)	The Company shall harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and use the same water for the process activities of the project to conserve fresh water.	Two roof top RWH scheme commissioned in the new project and Two more RWH scheme commissioned in Admn. Building and in Town Ship Temple complex during the FY(2020-21). Total 23 nos.(19+4) nos. of Rainwater Harvesting Projects has been implemented covering roof area of 22267 SQM and surface area of 32900 SQM, having potential rainwater harvesting volume of 15659.3 M ^{3/Yr}
(vii)	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted.	Training on safe handling of chemicals is imparted to all employees. Pre-employment and routine periodical medical examinations for all employees are undertaken on regular basis. Details of medical examinations attached as Appendix-A13.

EC		
SI. No	General Condition	Compliance Status
(viii)	The company shall also comply with all the environmental protection measures and safeguards proposed in the documents submitted to the Ministry. All the recommendations made in the EIA/EMP in respect of environmental management, risk mitigation measures and public hearing relating to the project shall be implemented.	Environmental protection measures and safeguards as recommended in EIA has been complied and implemented along with commissioning of the project.
(ix)	The company shall undertake all relevant measures for improving the socio-economic conditions of the surrounding area. CSR activities shall be undertaken by involving local villages and administration.	Measures for improving the socio-economic condition of the surrounding area is undertaken under CSR.
(x)	The company shall undertake eco-developmental measures including community welfare measures in the project area for the overall improvement of the environment.	Measures are being undertaken in the nearby villages of the project area under CSR & CER Expenditure incurred under CSR for the year: 2016-17: 304.84 lakhs 2017-18: 740.95 lakhs 2018-19: 960.00 lakhs 2019-20: 916.08 lakhs 2020-21: 184.66 lakhs Expenditure incurred under CER for the year: 2021-22: 2021-22: Rs 272.56 lakhs and total 738.56 Lacks till date against the project
(xi)	A separate Environmental Management Cell equipped with full fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.	Already exists. BGR is having a separate environmental management cell and a full-fledged laboratory to carry-out environment management and monitoring functions. Organogram of HSE Department is attached as Appendix-A11 . BGR Environment Laboratory is accredited by NABL
(xii)	The company shall earmark sufficient funds towards capital cost and recurring cost per annum to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so earmarked for environment management/pollution control measures shall not be diverted for any other purposes.	Dedicated fund is earmarked for environment management and pollution control measures.
(xiii)	A copy of the clearance letter shall be sent by the project proponent to concerned Panchayat, Zila Parisad/Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal.	Not Applicable. However, the clearance dated 19.04.2017 has been published in local dailies, "The Sentinel" and "Amar Asom" on 27.04.2017.

EC		
SI. No	General Condition	Action
(xiv)	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated Environmental Clearance conditions including results of monitored data (both in hard copies as well as by email) to the respective Regional Office of MoEF&CC, the respective Zonal Office of CPCB and concerned SPCB. A copy of Environmental Clearance and six monthly compliance status reports shall be posted on the website of the company.	Noted and is being complied.
(xv)	The environmental statement for each financial year ending 31 st March in Form-V as is mandated shall be submitted to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the respective Regional Offices of MoEF&CC by e-mail.	Noted and is being complied.
(xvi)	The project proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry at http://moef.nic.in. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the concerned Regional Office of the Ministry.	Complied. The granting of Environment clearance dated 19.04.2017 has been published in "The Sentinel" and "Amar Asom" on 27.04.2017. The copy of the publication of EC forwarded to the Regional office of MoEF&CC, Shillong and SPCB office on 08.05.2017.
(xvii)	The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.	Complied. Date of final approval and the date of start of the project was informed to the Regional office as well as Ministry. Financial closure of the Project is not yet complete.

APPENDIX - A3

Tree Plantation (1st October, 2021 to 31st March, 2022)

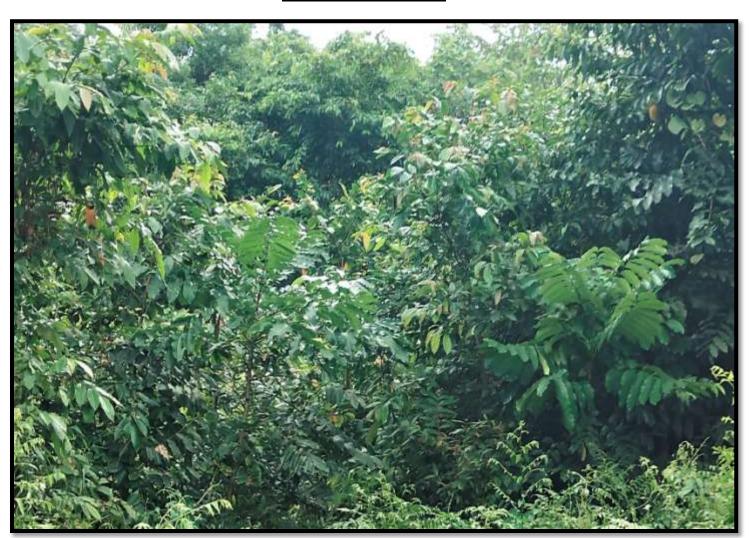

The entire area inside BGR covered with greenery through massive plantation activities. Through massive plantation work and by giving protection to natural forest growth in side BGR premises, the entire area has become green. The entire plant area where processing plant facilities do not exist has a green cover. This helps in reduction of noise and air pollution level in one hand while on the other hand provides protection to ecological features of the area. The refinery has an excellent quality environment around its complex. Natural greenery can be seen all around the complex as well as in BGR Township and in all seasons of the year.

Tree Census was done by Divisional Forest Office, Chirang. As per census, 84545 numbers of plants which include trees including shrubs, ocular estimated 33000 numbers bamboos in 1150 no. bamboo culms and also trees planted by BGR during 2003 to 2012

BGR has planted 29600 nos of saplings in the FY 2017-18, in FY 2018-19, 30,062 nos, in FY 2019-20 14340 nos, and in FY 2020-21 25606 nos. of saplings planted in and around the complex

During the FY 2021-22 BGR has planted 1,00,000 nos. of tree saplings.

Tree Plantation 2017-18

<u>Birhangaon State Dispensary Plantation, 10,000 nos. Sapling Planted by Miyawaki Method in the</u> month of August,2017. Grouth as on May,2022

Tree Plantation 2018-19

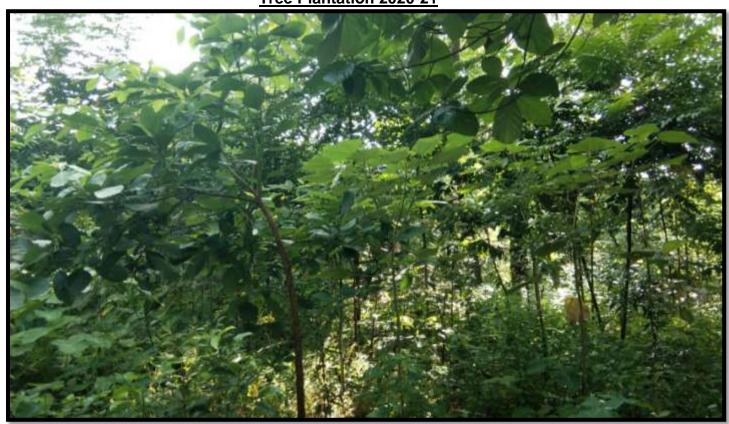

BGR TOWNSHIP PLANTATION, Planted Van mahotsav 2018, Growth as on April'2022

Tree Plantation 2019-20

Birhangaon State Dispensary Plantation, 5375 nos. Sapling Planted by Miyawaki Method in the month of September, 2019 Grouth as on March, 2022.

Tree Plantation 2020-21

On WED'2020, 3740 nos. of sapling planted in BGR Township, Grouth as on April,2022.

Tree Plantation 2020-21

4810 nos of sapling Planted in the month of August'2020 at Hatipota Brahma Mandir,

<u>Grouth as on April,2022.</u>

Tree Plantation 2021-22(One Lacks sapling planted during FY 2021-22)

Planted on WED'2021, in BGR Township, Grouth as on April,2022

Tree Plantation 2021-22 (One Lacks sapling planted during FY 2021-22)

Part of Plantation at Amguri Forest Range, Koila Moila, In collaboration with DFO Chirang

APPENDIX - A 4

Additional Information

(1st October, 2021 to 31st March, 2022)

Effluent reused during the period is **100**% of the total effluent treated which includes plant effluent as well as BGR Township sewer.

Under the Leak Detection and Repair programme (LDAR), BGR is conducting quarterly Fugitive Emission Survey. During the period from 1st October, 2021 to 31st March, 2022, all potential leaky points checked and few Leaky points detected and rectified. By following LDAR programme in true spirit, the company could not only avoid potential loss of 0.726 MT/D (approx.) of light Hydrocarbon to the atmosphere through fugitive sources but also able to keep healthy work environment in the plants.

To ensure work area quality and health of equipments, quarterly noise survey was conducted covering all the operating plants, control rooms and ambient surrounding the BGR. During 1st October, 2021 to 31st March, 2022, Noise Survey for two quarters of 2021-22(Q3 & Q4) has been completed and no abnormality was reported.

As a measure of Hazardous Waste Management, A third party has been engaged for processing tank bottom sludge through mechanized treatment. Another third party is engaged for processing of the oily sludge & recovery of oil from the oily sludge stored in the concrete lagoon. Melting pit facility is available for recovering oil from oily sludge.

One old slurry thickener in ETP,from Petrochemical section was converted to confined space bioremediation reactor to treat oily sludge with help from IOCL-R&D. The process of bio-remediation started from July 2017. From 1st October, 2021 to 31st March, 2022, 46 MT of oily sludge has been processed in the Bio-reactor.

Bio-remediation facility of BGR

Further two more Rain Water Harvesting (Ground Water Recharging) schemes in BS-VI project have been implemented during 2019-20 and Two more implemented in the FY 2020-21 in Admn. Building and BGR Township temple complex..
