<td></td>
</tr>
<tr>
<td><strong>16.</strong> Blow Out Preventer (BOP) system shall be installed to prevent well blowouts during drilling operations. BOP measures during drilling shall focus on maintaining well bore hydrostatic pressure by proper pre-well planning and drilling fluid logging etc.</td>
<td><strong>Blow out Preventer system was installed at all the drilling locations as per OMR guidelines.</strong></td>
<td></td>
</tr>
<tr>
<td><strong>17.</strong> Emergency Response Plan (ERP) shall be based on the guidelines prepared by OISD, DGMS and Govt. of India.</td>
<td><strong>Emergency Response Plan was prepared based on the guidelines by OISD, DGMS and Govt. of India. ERP was followed during drilling operations of all the exploratory wells.</strong></td>
<td></td>
</tr>
<tr>
<td><strong>18.</strong> The company shall take measures after completion of drilling process by well plugging and secured enclosures, decommissioning of rig upon abandonment of the well and drilling site shall be restored the area in original condition. In the event that no economic quantity of hydrocarbon is found a full abandonment plan shall be implemented for the drilling site in accordance with the applicable Indian Petroleum Regulations.</td>
<td><strong>Adequate measures were taken to comply with the guidelines.</strong></td>
<td></td>
</tr>
</tbody>
</table>
19. All the commitments made to the public during public hearing/public consultation meeting held on 14th August, 2012 for Vadodara District and 1st July, 2012 for Bharuch District shall be satisfactorily implemented and adequate budget provision shall be made accordingly.  
Was complied with.

20. Occupational health surveillance of the workers shall be carried out as per the prevailing Acts and Rules.  
Adequate measures were taken to comply with the guidelines.

21. In case the commercial viability of the project (for exploratory drilling) is established, the Company shall prepare a detailed plan for development of oil and gas fields and obtain fresh environmental clearance from the Ministry.  
Drilling of all the proposed wells have been completed. In absence of any hydrocarbon discovery the block will be proposed for relinquishing.

22. Restoration of the project site after completion of drilling shall be carried out satisfactorily and report shall be sent to the Ministry's Regional Office at Bhopal.  
Noted and Accepted.

23. Oil content in the drill cuttings shall be monitored by some Authorized agency and report shall be sent to the Ministry's Regional Office at Bhopal.  
Was complied during drilling activities of all the exploratory wells.

24. Under Corporate Social Responsibility (CSR), sufficient budgetary provision should be made for health improvement, education, water and electricity supply etc. in and around the project.  
Noted and Accepted.

25. An audit shall be done to ensure that the Environment Management Plan is implemented in totality and report shall be submitted to Ministry's Regional Office.  
Noted and Accepted.

26. Company should prepare and circulate the environmental policy.  
Environmental Policy was prepared and Circulated.

Ambient Air Sample Analysis Report

Client Name & Address:
Indian Oil Corporation Limited
7th Floor, Indian Oil Bhavan,
1, Sri Aurobindo Marg, Yusuf Sarai,
Test Report No.: 50DD00000129
Issue Date: 30.06.2015
Report Page (of 1): 1 of 1

Sampling Details:
- Protocol Purpose: Ambient Air Quality Analysis
- Sample Lab ID: A56-30/A44/22/05/15
- Sampling Procedure: Not Specified
- Packing: Filter Paper packed in plastic envelopes and Gaseous Solution in Bottles, Glass wool tubes, etc.
- Date of Sampling: 18.05.2015
- Sampling Duration: 30 min
- Client Order: E/PC007/EIE/DETOX/2015-16/Q2/CA Dated on: 17.04.2015
- Sampling Time: 12:45:00
- Client Representative: Mr. R. Sharma
- Sample Received Date: 22.06.2015
- Sampling Done By: Hitesh Shrivast
- Test Start Date: 22.06.2015
- Location of Sampling: IOCL Plant 1
- Test Completion Date: 23.06.2015
- L4: Diesel Storage Area

Annexure-6 Newspaper clips for EC Advertisement
It is hereby informed by M/s. Indian Oil Corporation Limited (IOCL) that our project "Onshore Oil and Gas Exploration in NELP-VII Block CB-ONN-2006/7 at Cambay Basin" located at Vadodara and Bharuch Districts has been accorded Environmental Clearance by Honourable Ministry of Environment and Forests (MoEF), Government of India. The copies of the environmental clearance letter are available with the Gujarat Pollution Control Board (GPCB) and may also be seen at MoEF Website at http://envfor.nic.in.

Hridesh Baindali, DGM (E&P)

Visit: www.iocl.com for more details.
Annexure- 7: Petroleum exploration License (PEL)
Grant of Petroleum Exploration Licence for the Block CB-CNN-2005/7 (NELP-VII), area measuring 199.00 Sq.Km, in Vodafone & Bharuch Dist.

Government of Gujarat,
Energy & Petrochemicals Department,
No. PEL-10-2009-147-E,
Sachivalaya, Gandhinagar.

Dated the 3 MAY 2010

ORDER:

In exercise of the powers conferred by Rule 5(1)(ii) of the Petroleum and Natural Gas Rules, 1959, the Government of Gujarat is pleased to Grant a Petroleum Exploration License to Indian Oil Corporation Ltd. as an operator for a period of 4 years (Four years) to prospect for petroleum with effect from the date of issue of the order in the area admeasuring 199.00 Sq.Km. for the Block CB-CNN-2005/7(NELP-VII) in Vodafone & Bharuch Dist.

The grant of the licence is subject to the terms and conditions mentioned below:

(a) If any minerals are found during the exploration work, the Indian Oil Corporation Ltd. should bring them to the notice of State Government with full particulars available with them.
(b) The Indian Oil Corporation Ltd. has deposited security deposit prescribed in Rule 13 of the Petroleum & Natural Gas Rules, 1959. The Indian Oil Corporation Ltd. has also paid the necessary amounts as an application fee and preliminary expenses as detailed below:

(c) The Indian Oil Corporation Ltd. shall immediately on demand submit to the State Government and the Director of Petroleum confidentially a full report of the Geological
data of all the minerals found during the exploration of oil and/or gas and shall submit without fail every six months, the results of all operation boring and exploration to the State Government and Central Government.

(d) The Indian Oil Corporation Ltd shall take preventive measures against the hazard of fire under ground and/or on the surface and shall keep such equipment, supplies and means to extinguish the fire at all times and shall pay such compensation to the third party and/or Government as may be determined in case damage due to fire.

OTHER TERMS AND CONDITIONS:-

(1) The license shall be in respect of Crude Oil and Natural Gas.

(2) The grant of license shall be valid for a period of 4 (Four) years.

(3) This license shall be subject to the provisions of Oil field (Regulations and Development) Act, 1948, (53 of 1948) and the Petroleum & Natural Gas Rules, 1959 made thereunder as amended from time to time.

(4) Immediately on demand or upon determination or relinquishment of any area covered by this lease, the lessee shall furnish to the Central Government/GHG, through the State Government confidentiality, the complete records of data as specified in Rule 19 (c) of the P&NG Rules, 1959. The lessee shall submit to Central Government, without fail, every six months the results of all operations, boring and test production.

(5) If any minerals other than petroleum are found during the exploration activities, Lessee shall bring to the notice of the Central Government with full particulars thereof.

(6) All army Cantonments, stations, depots, establishments, field firing ranges and ordnance factories within the exploration block are excluded from exploration, survey and digging activities.

(7) For development of new roads and tracts related to exploration activities in the border belt, prior sanction of Ministry of Defence shall be obtained.

(8) For work in close proximity of Army Cantonments/Stations, depots, ranges, ordnance factories and visits to these installations, if any, specific permission of Army authorities shall be taken.

(9) Necessary approval from the Competent Authority should be obtained for the Reserve Forest Area (if any) falling in the licensed area.

However, the Licensee may carry out surveys for oil exploration in the Reserved Forest Area falling in such area without obtaining prior clearance of the Ministry of Environment and Forests, Government of India under the Forest (Conversation) Act, 1980 so long as the surveys do not involve cutting of trees.

The Licensee shall, however, in no circumstance carry out such surveys in specially protected areas like Wildlife sanctuary, national parks and preservation or sample plots demarcated by the Forest Department (Rs. Letter No. 11-25/86-FRY (CONS) dated 8-5-1986, Department of Environment & Forest & Wildlife, Government of India).

(10) If international companies or foreigners are entrusted with the task, the Licensee may get security vetting of these companies through the appropriate Government agencies with help of this Ministry. The lessee shall also seek prior clearance from the Ministry of Home Affairs and Ministry of Defence with the full particulars of the foreign employees under intimation to this Ministry.

(11) The exploration activities shall not interfere with the safety/security of any civil VAPV covered in this area.

(12) The Licensee shall issue identity card to each of the employees. The system of checking identity cards of personnel will have to be strictly enforced.

(13) Security to its employees both at the project sites and en-route in insurgency affected areas will be the responsibility of the Licensee.
15:21:212

(14) Licensee shall allow Government, authorities to enter and inspect area for security check-up, if necessary.

(15) Licensee shall not employ any foreign national surreptitiously in the area along the border.

(16) No ground / aerial survey of the Defense VAs/VPs is permitted. Aerial survey, if any, would be governed by the provisions of Ministry of Defense letter No. 18(8)/82-D (GS 111) dated January 31, 1989.

(17) Air Force area falling within the zones embanked for delineation shall be avoided.

(18) For works in close vicinity of Indian Air Force units / installations and visit to these installations, if any, specific permission of Air Headquarters, should be obtained.

(19) Any work within 500m of the perimeter of Air Force Station should be intimated to Air Force Authority at least 10 days before commencement of the activities.

(20) No obstruction shall be erected higher than 15 mtrs. Within 5 kms. radius of Air Force Air Fields and construction of any high mast / towers shall be carried out in consultation with the Air Force Authority.

(21) Planned use of explosives on or below the surface shall be intimated to Air Force Authority at least 48 hours in advance.

(22) No drilling work or installation of pipeline shall be carried out in and around village lake or residential area.

(23) All approach roads and natural drainage should be kept clear, open and intact.

(24) No work shall be carried out to damage public interest in any form.

(25) No existing infrastructure public or private underground utility and human beings to be harmed.

(26) The licensee have to submit the report of activities carried out in the said PEL area to the Director of Petroleum every month.

(27) During the license period if any discovery is made, licensee has to immediately report it to the State Government and Director of Petroleum.

(28) Licensee shall execute a separate lease deed in respect of such other covenants, terms and conditions as per the prescribed format.

(29) Infringement of any one or more of the conditions enumerated above shall automatically render this PEL null and void ab initio.

By order and in the name of the Governor of Gujarat,

Subject: Drilling Activities of On-Shore Oil & Gas Exploration at Cambay Rasin, Block-CB-ONNN-2005/7 in Vadodara and Bharuch Districts, Gujarat by M/s Indian Oil Corporation Limited - Environmental Clearance reg.

Sir,

This has reference to your letter dated 22nd October, 2012 alongwith Form-1, Prefeasibility Report.

The Ministry of Environment & Forests has examined your application. It is noted that proposal is for offshore exploratory drilling of 11 wells at Cambay Rasin, Block-CB-ONNN-2005/7 in Vadodara and Bharuch Districts of Gujarat. Ministry of Petroleum & Natural Gas (MoPNG), Govt. of India awarded exploration block CB-ONNN-2005/7 to Indian Oil Corporation Ltd. during seventh round of bidding under New Exploration Licensing Policy (NELP). A Production Sharing Contract (PSC) was signed between the Government of India (Gol) and Indian Oil Corporation Limited (IOCL) on 22nd December, 2000. The proposed block CB-ONNN-2005/7 spreads across an area of 199 sq. km. in Vadodara and Ruch district of Gujarat. As per the Production Sharing Contract (PSC), the project will involve drilling of 10 exploration wells of 2000 m depth each in Phase-1 & one exploration well of 800 m depth in phase-2 within licensed area of 199 km² of which 175 km² and 24 km² in Vadodara and Bharuch Districts respectively. Narmada River is flowing within the block, Dhodhar River (7.6 km) and Vansalwadi River (8.6 km) are flowing within 10 km distance. Cost of project is Rs. 310.00 Crore. No forest land is involved. No national park/ wildlife sanctuary/ reserve forest is located within 10 km from the proposed wells. Coordinates of the Block are as follows:

3.0 Air emissions from D.G. sets will be dispersed by providing adequate stack height. Water based mud will be used. Total water requirement from ground water/surface water source will be 45 m$^3$/day. Drilling and wash water generation will be 20 m$^3$/day and treated in ETP and stored in HDPE lined pit. Domestic effluent will be treated in septic tank followed by soak pit. No effluent will be discharged outside the premises and ‘Zero’ effluent discharge concept will be adopted. Drilling well will generate drill cutting (800 MT) and drilling mud (20 m$^3$) and stored in HDPE lined pit. Disposal of drill cuttings and drill mud will be carried out in accordance with the GSR 546 (E) dated 30th August, 2005. Used oil will be sold to authorized recyclers.

4.0 The proposal was considered by the Expert Appraisal Committee (Industry-2) in its 25th meeting held during 28th-30th July, 2011 and by the Reconstituted Expert Appraisal Committee (Industry) in its 4th meeting held during 8th – 9th January, 2013 respectively.

5.0 All the projects related to offshore and onshore Oil and Gas exploration, development and production are listed in para 3(b) of schedule of EIA Notification, 2006 covered under category ‘A’ and appraised at central level.

6.0 Public hearings/public consultations were held on 14th August, 2012 for Vadodara District and 2nd July, 2012 for Bharuch District.

7.0 Based on information submitted by you, presentation made by you and Environmental Consultant namely M/s SENES Consultants India Pvt. Ltd., the Ministry of Environment and Forests hereby accords environmental clearance to the above project under the provisions of EIA Notification dated 14th September, 2006 subject to strict compliance of the following specific and general conditions:

**A. SPECIFIC CONDITIONS**:

i. Gas produced during testing shall be flared with appropriate flaring booms. The flare system shall be designed as per good oil field practices and Oil Industry Safety Directorate (OISD) guidelines. The stack height shall be provided as per the regulatory requirements and emissions from stacks will meet the MOEF/CPCB guidelines.

ii. Ambient air quality shall be monitored at the nearest human settlements as per the National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No. 626(E) dated 18th November, 2009 for PM$_{10}$, PM$_{2.5}$, SO$_2$, NO$_2$, CO, CH$_4$, HC, Non-methane HC etc.

iii. Mercury shall also be analyzed in air, water and drill cuttings twice during drilling period.

iv. Approach road shall be made pucca to minimize generation of suspended dust.

v. The company shall make the arrangement for control of noise from the drilling activity. Acoustic enclosure shall be provided to DG sets and proper stack height shall be provided as per CPCB guidelines.
vi. Total water requirement shall not exceed 25 m³/day/ well and prior permission should be obtained from the Competent Authority.

vii. The company shall construct the garland drain all around the drilling site to prevent runoff of any oil containing waste into the nearby water bodies. Separate drainage system shall be created for oil contaminated and non-oil contaminated. Effluent shall be properly treated and treated wastewater shall conform to CPCB standards.

viii. Drilling wastewater including drill cuttings wash water shall be collected in disposal pit lined with HDPE lining evaporated or treated and shall comply with the notified standards for on-shore disposal. The membership of common TSDF shall be obtained for the disposal of drill cuttings and hazardous waste. Otherwise, secured land fill shall be created at the site as per the design approved by the CPCB and obtain authorization from the GPCB. Copy of authorization or membership of TSDF shall be submitted to Ministry’s Regional Office at Bhopal.

ix. No effluent/drilling mud/drill cutting shall be discharged/disposed off into nearby surface water bodies.

x. Good sanitation facility shall be provided at the drilling site. Domestic sewage shall be disposed off through septic tank/ soak pit.

xi. Oil spillage prevention and mitigation scheme shall be prepared in case of oil spillage/contamination, action plan shall be prepared to clean the site by adopting proven technology. The recyclable waste (oily sludge) and spent oil shall be disposed of to the authorized recycler.

xii. The company shall comply with the guidelines for disposal of solid waste, drill cutting and drilling fluids for onshore drilling operation notified vide GSR 548(E) dated 30th August, 2005.

xiii. The Company shall take necessary measures to prevent fire hazards, containing oil spill and soil remediation as needed. Possibility of using ground flare shall be explored. At the place of ground flaring, the overhead flaring stack with knockout drums shall be installed to minimize gaseous emissions during operation.

xiv. The company shall develop a contingency plan for H₂S release including all necessary aspects from evacuation to resumption of normal operations. The workers shall be provided with personal H₂S detectors in locations of high risk of exposure along with self containing breathing apparatus.

xv. The Company shall carry out long term subsidence study by collecting base line data before initiating drilling operation till the project lasts. The data so collected shall be submitted six monthly to the Ministry and its Regional Office at Bhopal.

xvi. Blow Out Preventor (BOP) system shall be installed to prevent well blowouts during drilling operations. BOP measures during drilling shall focus on maintaining well bore hydrostatic pressure by proper pre well planning and drilling fluid logging etc.

xvii. Emergency Response Plan (ERP) shall be based on the guidelines prepared by OISD, DGMS and Govt. of India.
xviii. The company shall take measures after completion of drilling process by well plugging and secured enclosures, decommissioning of rig upon abandonment of the well and drilling site shall be restored the area in original condition. In the event that no economic quantity of hydrocarbon is found a full abandonment plan shall be implemented for the drilling site in accordance with the applicable Indian Petroleum Regulations.

xix. All the commitments made to the public during public hearing/public consultation meeting held on 14th August, 2012 for Vadodara District and 1st July, 2012 for Bharuch District shall be satisfactorily implemented and adequate budget provision shall be made accordingly.

xx. Occupational health surveillance of the workers shall be carried out as per the prevailing Acts and Rules.

xxi. In case the commercial viability of the project (for exploratory drilling) is established, the Company shall prepare a detailed plan for development of oil and gas fields and obtain fresh environmental clearance from the Ministry.

xxii. Restoration of the project site shall be carried out satisfactorily and report shall be sent to the Ministry’s Regional Office at Bhopal.

xxiii. Oil content in the drill cuttings shall be monitored by some Authorized agency and report shall be sent to the Ministry’s Regional Office at Bhopal.

xxiv. Under Corporate Social Responsibility (CSR), sufficient budgetary provision should be made for health improvement, education, water and electricity supply etc. in and around the project.

xxv. An audit shall be done to ensure that the Environment Management Plan is implemented in totality and report shall be submitted to the Ministry’s Regional Office.

xxvi. Company should prepare and circulate the environmental policy.

xxvii. All personnel including those of contractors shall be trained and made fully aware of the hazards, risks and controls in place.

xxviii. Company shall have own Environment Management Cell having qualified persons with proper background.

xxix. Company shall prepare operating manual in respect of all activities. It shall cover all safety & environment related issues and system. Measures to be taken for protection. One set of environmental manual shall be made available at the drilling site/project site. Awareness shall be created at each level of the management. All the schedules and results of environmental monitoring shall be available at the project site office. Remote monitoring of site should be done.

xxx. Ground water analysis should be carried out at different depth to see stratification.

xxxi. Drilling site should be at least 500 m away from the school.

xxxi. On completion of drilling, the company has to plug the drilled wells safely and obtain certificate from environment safety angle from the concerned authority.
B. GENERAL CONDITIONS:

i. The project authorities must strictly adhere to the stipulations made by the Gujarat Pollution Control Board (GPCB), State Government and any other statutory authority.

ii. No further expansion or modification in the project shall be carried out without prior approval of the Ministry of Environment & Forests. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.

iii. The project authorities must strictly comply with the rules and regulations under Manufacture, Storage and Import of Hazardous Chemicals Rules, 2000 as amended subsequently. Prior approvals from Chief Inspectorate of Factories, Chief Controller of Explosives, Fire Safety Inspectorate etc. must be obtained, wherever applicable.

iv. The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).

v. A separate Environmental Management Cell equipped with full fledged laboratory facilities must be set up to carry out the environmental management and monitoring functions.

vi. A copy of clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parishad / Municipal Corporation, Urban Local Body and the local NGO, if any, from whom suggestions / representations, if any, were received during processing the proposal. The clearance letter shall also be put on the web site of the company by the proponent.

vii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the MOCF, the respective Zonal Office of CPCB and the GPCB. The criteria pollutant levels namely, PM10, SO2, NOx, HC (Methane & Non-methane), VOCs (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

viii. The project proponent shall also submit six monthly reports on the status of the compliance of the stipulated environmental conditions including results of monitored data (both in hard copies as well as by e-mail) to the Regional Office of MOCF, the respective Zonal Office of CPCB and the GPCB. The Regional Office of this Ministry / CPCB / GPCB shall monitor the stipulated conditions. Environmental Clearance and six monthly compliance status reports shall be posted on the website of the company.

ix. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental conditions and shall also be sent to the respective Regional Offices of the MOCF by e-mail.
x. The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the GPCB and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the Regional office.

xi. Project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.

8.0 The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.

9.0 The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.

10.0 The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Water Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous Waste (Management, Handling and Trans-boundary Movement) Rules, 2008 and the Public Liability Insurance Act, 1991 along with their amendments and rules.

1. SPECIFIC CONDITION:

1.1 Applicant shall comply with all the conditions stipulated by Ministry of Environment and Forests, New Delhi, GOI in their order of Environment Clearance No. F.No. J-11011/279/2011-12/11(1) dated: 07/06/2013.

GPCB ID 42847 - Clean Gujarat Green Gujarat
1.2 Applicant shall obtain N.A. permission from Competent Authority & shall submit to this office before commencing the production/ activities.

2. CONDITION UNDER THE WATER ACT:

2.1 The quantity of the industrial effluent to be generated from the manufacturing process and other ancillary industrial operations shall not exceed 10 kl/day.

2.2 The quantity the domestic waste water (sewage) shall not exceed 1.5 kl/day.

3 TRADE EFFLUENT:

3.1 The ETP plant shall conform to the following units:
   1. Solar evaporation pond

3.2 The entire effluent from the industrial plant shall be evaporated & there shall be no discharge of any industrial effluent into an environment like river, land, drain, nullah etc.

3.3 Domestic effluent shall be disposed off through septic tank/soak pit system.

4. CONDITIONS UNDER AIR ACT 1981:

4.1 The following shall be used as fuel into boilers/ furnaces/ D.G sets etc.

</tbody>
</table>

GPCB ID-42847
4.4 D.G.Set standards:-
The flue gas emission through stack attached to D.G.Set shall conform to the following standards.

a. The minimum height of stack to be provided with each of the generator set shall be H = h + 0.2 (KVA)^1/2, where H = Total stack height in meter, h = height of the building in meters where or by the side of which the generator set is installed.
b. Noise from DG set shall be controlled by providing an acoustic enclosure or by treating the room acoustically, at the users end.
c. The acoustic enclosure or acoustic treatment of the room shall be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on the higher side (if the actual ambient noise is on the higher side, it may not be possible to check the performance of the acoustic enclosure/ acoustic treatment. Under such circumstances the performance may be checked for noise reduction up to actual ambient noise level, preferably, in the night time). The measurement for insertion loss may be done at different points at 0.5 m from the acoustic enclosure/room, and the averaged.
d. The D.G. Set shall be provided with proper exhaust muffler with insertion loss of minimum 25 dB (A).
e. All efforts shall be made to bring down the noise level due to the D.G.Set, outside the premises, within the ambient noise requirements by proper siting and control measures.
f. Installation of a D.G.Set must be strictly in compliance with the recommendations of the D.G.Set manufacturer.
g. A proper routine and preventive maintenance procedure for the D.G.Set should be set and followed in consultation with the DG Set manufacture which would help prevent noise levels of the DG Set from deteriorating with use.
h. There shall be no generation of Process emission from the manufacturing activities and other ancillary industrial operation.

4.5 There shall be no emission of Process gas from the manufacturing activities and other ancillary industrial operation.

4.6 Stack monitoring facilities like port hole, platform/ladder etc., shall be provided with stacks/vents chimney in order to facilitate sampling of gases being emitted into the atmosphere.

5. The concentration of the following parameters in the ambient air within the premises of the industry and a distance of 10 meters from the source) other than the stack vent) shall not exceed the following levels.

6. The applicant shall provide portholes, ladder, platform etc at chimney(s) for monitoring the air emissions and the same shall be open for inspection to and for use of Board’s staff. The chimney(s) vents attached to various sources of emission shall be designed by numbers such as S-1, S-2, etc. and these shall be painted/displayed to facilitate identification.

7. The Industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standards in respect of noise to less than 75 dB(a) during day time and 70 dB (A) during night time. Daytime is reckoned between 6 a.m. and 10 p.m. and nighttime is reckoned between 10 p.m. and 6 a.m.

8. **CONDITIONS UNDER HAZARDOUS WASTE RULES 2008 AS AMENDED**

8.1 The applicant shall provide temporary onsite storage facilities for each type of Hazardous Waste as per Hazardous Waste (Management, Handling & Transboundary Movement) Rules, 2008 as amended from time to time.

8.2. The applicant shall be obtained membership of authorized common hazardous waste incinerator facility and/or common TSDF facility for disposal of hazardous wastes based on its characteristics and as categorized in Hazardous Waste (Management, Handling & Transboundary Movement) Rules, 2008 as amended from time to time.

8.3. Hazardous Waste generated shall be disposed off in accordance with the Hazardous Waste (Management, Handling & Transboundary Movement) Rules, 2008 and unit shall have to obtain authorization of the Board for all applicable categories of Hazardous wastes.

8.5 The applicant shall explore possibilities for waste minimization, reuse, recovery, and utilization. The applicant shall also explore possibilities of utilization/treatment/disposal of high calorific wastes through authorized Cement kilns.

GPCB ID-42847
8.6 Applicant shall comply the guideline for Disposal of Solid waste, Drill activities & Drilling fluids for onshore drilling operation as published/ notified by the Ministry of Environment Forests & Climate change, New Delhi & Central Pollution Control Board New Delhi.

GENERAL CONDITIONS:

9. You shall obtain the permission from all the relevant Agencies / Authorities as applicable before starting any activities.

11. Adequate plantation shall be carried out all along the periphery of the industrial premises in such a way that the density of plantation is at least 1000 trees per acre of land and a green belt of 10 meters width is developed.

12. The applicant shall have to submit the returns in prescribed format regarding water consumption and shall have to make payment of water cess to the Board under the Water Cess Act 1977.

13. In case of change of ownership/management the name and address of the new owners/partners/directors/proprietor should immediately be intimated to the Board.

14. The applicant shall however, not without the prior consent to operate of the Board bring into use any new or altered outlet for the discharge of effluent or gaseous emission or sewage waste from the proposed industrial plant. The applicant is required to make applications to this Board for this purpose in the prescribed forms under the provisions of the Water Act-1974, the Air Act-1981 and the Environment (Protection) Act-1986.

15. The applicant also comply with the General conditions as per Annexure - I attached herewith (No.1 to 38) (whichever applicable).

16. The concentration of Noise in ambient air within the premises of industrial unit shall not exceed following levels:

   Between 6 A.M. and 10 P.M.: 75 dB (A)
   Between 10 P.M. and 6 A.M.: 70 dB (A)

Clean Gujarat Green Gujarat

18. If it is established by any competent authority that the damage is caused due to their industrial activities to any person or his property in that case they are obliged to pay the compensation as determined by the competent authority.

For and on behalf of
Gujarat Pollution Control Board

(Dipali Tank)
Unit Head
Copy of Consent to Operate (CTO)
In exercise of the power conferred under section-25 of the Water (Prevention and Control of Pollution) Act-1974, under section-21 of the Air (Prevention and Control of Pollution) Act-1981 and Authorization under rule 3(c) & 3(f) of the Hazardous Waste (Management and Handling and Trans boundary Movement) Rules 2008 framed under the E(P) Act-1986, This Board is empowered to grant C&A.

And whereas Board has received consolidated consent application No.88007, Dated:07/01/2015 for the consolidated consent and authorization (CC & A) of this Board under the provisions / rules of the aforesaid Acts. Consent & Authorization is hereby granted as under.

CONSENT AND AUTHORISATION:
(Under the provisions / rules of the aforesaid environmental acts)

To,
M/s. Indian Oil Corporation Ltd.
(Block Ch-06-2005/7) onshore,
Karjan (Total 175 Sq. M. Area Block),
Drilling Well, Karjan, Near Karjan village-391240
Tal:Karjan, Dist: Vadodara.

1. Consent Order No.: AWH-68947, Date of issue: 06/01/2015.
2. The consent shall be valid up to 05/01/2020 for the use of outlet for the discharge of treated effluent & air emission and to operate exploratory wells/plant as under:

<table>
<thead>
<tr>
<th>Sr. No.</th>
<th>Product</th>
<th>Quantity</th>

<td>5 Nos.</td>
</tr>
</tbody>
</table>

1. Specific Condition:
1.1. Applicant shall comply with all the Conditions stipulated by Ministry of Environment and Forests, New Delhi, GOI in their order of Environment Clearance No.F. No. 11001/279/2011-IA 11(1) dated 07/06/2013.
1.2. Applicant shall obtain prior permission of other competent authorities as required.

2. CONDITIONS UNDER WATER ACT:-
2.1. The quantity of trade effluent from the factory shall not exceed 10 KL/day. The entire effluent shall be evaporated & there shall be no discharge of any industrial effluent into an environment like river, drain etc.

GPCB ILP: 42847

Clean Gujarat
Green Gujarat

2.2 The quantity the domestic waste water (sewage) shall not exceed 1.50
KL/day.

2.3 Domestic effluent shall be disposed of through septic tank/soak pit
system.

3. CONDITIONS UNDER THE AIR ACT:

3.1. The following shall be used as fuel in D.G. Set.

<table>
<thead>
<tr>
<th>Sr. No.</th>
<th>Fuel</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>HSD</td>
<td>6 KL/Day</td>

4.2 The applicant shall install & operate air pollution control system in order to
achieve norms prescribed below.

4.2.1 The flue gas emission through stack attached to D.G. Set shall conform to
the following standards.

<table>
<thead>
<tr>
<th>Sr. No</th>
<th>Stack Attached To</th>
<th>Stack Height</th>
<th>Parameter</th>
<th>Permissible Limit</th>
</tr>

</tr>
<tr>
<td>2</td>
<td>D.G. Set (100 KVA)</td>
<td>11 Meter</td>
<td>NOx</td>
<td>50 ppm</td>
</tr>
</tbody>
</table>

4.2.2 There shall be no process gas emission from the manufacturing process and
other ancillary industrial operations.

4.2. Stack monitoring facilities like port hole, platform/ladder etc., shall be
provided with stacks/vents Chimney in order to facilitate sampling of gases
being emitted into the atmosphere.

4.3. The concentration of the following parameters in the ambient air within the
premises of the industry and a distance of 10 meters from the source (other
than the stack/vent) shall not exceed the following levels.

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Permissible Limit Annual</th>
<th>Permissible Limit 24 Hrs. Average</th>
</tr>
</thead>

</tr>
</tbody>
</table>

4.4. The applicant shall provide portholes, ladder, platform etc at chimney(s) for
monitoring the air emissions and the same shall be open for inspection to/and
for use of Board’s staff. The chimney(s) vents attached to various
sources of emission shall be designated by numbers such as S-1, S-2, etc. and
these shall be painted/displayed to facilitate identification.

4.5. The industry shall take adequate measures for control of noise levels from
its own sources within the premises so as to maintain ambient air quality.

GPCB ID: 42847
standards in respect of noise to less than 75 dB(A) during day time and 70 dB(A) during night time. Daytime is reckoned in between 6 a.m. and 10 p.m. and nighttime is reckoned between 10 p.m. and 6 a.m.

4.6. D.G. Set standards- The flue gas emissions through stack attached to D.G. Set shall conform to the following standards:

a) The minimum height of stack to be provided with each of the generator set shall be 3h = 0.2 (KVA) \(^2\), where H= Total stack height in meters, h= height of the building in meters where or by the side of which the generator set is installed.

b) Noise from D.G set shall be controlled by providing an acoustic enclosure or by treating the room acoustically, at the user’s end.

c) The acoustic enclosure or acoustic treatment of the room shall be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on the higher side (if the actual ambient noise is on the higher side, it may not be possible to check the performance of the acoustic enclosure/acoustic treatment. Under such circumstances the performance may be checked for noise reduction up to actual ambient noise level, preferably in the night time). The measurement for insertion loss may be done at different points at 0.5 m from the acoustic enclosure/room, and be averaged.

d) The D.G. Set shall be provided with proper exhaust muffler with insertion loss of minimum 25 dB (A).

e) All efforts shall be made to bring down the noise level due to the D.G. Set, outside the premises, within the ambient noise requirements by proper siting and control measures.

f) Installation of a D.G. Set shall be in strict compliance with the recommendations of the D.G. Set manufacturer.

g) A proper routine and preventive maintenance procedure for the D.G. Set should be set and followed in consultation with the D.G. Set manufacturer which would help prevent noise levels of the D.G. Set from deteriorating with use.

5. GENERAL CONDITIONS:

5.1 Any change in personnel, equipment or working conditions as mentioned in the consent form/order should immediately be intimated to this Board.

5.2 Applicant shall also comply with the general conditions given in annexe-I.

5. AUTHORIZATION FOR THE MANAGEMENT & HANDLING OF HAZARDOUS WASTES Form-2 (See rule 5 (4)).

6.1 Number of authorization: AWII-68947, Date of issue: 05/01/2015.
6.2. M/s. Indian Oil Corporation Ltd. (Block Cb-Onn-2005/7) onshore, is hereby granted an authorization to operate facility for following hazardous wastes on the premises situated at Karjan (Total 175 Sq. M Area Block), Drilling Well, Karjan, Near Karjan village, 391240, Tal:Karjan, Dist: Vadodara.

6.3. The authorization is granted to operate a facility for collection, storage, transportation and disposal of Hazardous wastes as above. The treatment and disposal of hazardous waste shall be as per the guideline issued by the Central Pollution Control Board, New Delhi and the Ministry of Environment, Forest and Climate Change time to time.

6.4. The authorization shall be in force for a period up to 05/01/2020.

6.5. The authorization is subject to the conditions stated below and such other conditions as may be specified in the rules from time to time under the Environment (Protection) Act-1986.

6.6. **TERMS AND CONDITIONS OF AUTHORISATION:**

6.6.1. The applicant shall comply with the provisions of the Environment (Protection) Act - 1986 and the rules made there under.

6.6.2. The authorization shall be produced for inspection at the request of an officer authorized by the Gujarat Pollution Control Board.

6.6.3. The persons authorized shall not let, lend, sell, and transfer or otherwise transport the hazardous wastes without obtaining prior permission of the Gujarat Pollution Control Board.

6.6.4. Any unauthorized change in personnel, equipment or working conditions as mentioned in the authorization order by the persons authorized shall constitute a breach of this authorization.

6.6.5. It is the duty of the authorized person to take prior permission of the Gujarat Pollution Control Board to close down the facility.

6.6.6. An application for the renewal of an authorization shall be made as laid down in rule 5 (6) (ii).

6.6.7. Industry shall have to display the relevant information with regard to hazardous waste as indicated in the Court’s order in W.P. No.557 of 1995 dated 14th October 2008.

6.6.8. Industry shall have to display on-line data outside the main factory gate with regard to quantity and nature of hazardous chemicals being handled.
in the plant, including waste water and air emissions and solid hazardous waste generated within the factory premises.

6.6.9 Industry shall submit annual report within 15 days and sub squinty by 31st January every year.

6.6.10 Industry shall have to manage waste oil, discarded containers etc., process waste as per Amended Rules – 2008 and shall apply Authorization / submit details for all applicable waste as per Amended Rules’2008 with 15 days.

6.6.11 Industry shall not recycle the waste falling under Schedule-4 of the Authorization Hazardous waste Rules-2008, till they obtain registration as a recycler from CPCB / GPCB.
