SERVO ® PRODUCT DATA SHEET
SERVO TRANSMISSION T 20/30

GRADES AVAILABLE - SERVO TRANSMISSION T 20, T 30

DESCRIPTION
Servo Transmission T 20/30 are formulated to meet the requirement of Torque convertor Transmission & Hydraulic system fitted on Tractors and other Farm equipments. These fluid imparts anti-oxidation, anti-wear, defoaming, anti-corrosion and desired friction characteristics. Due to its high viscosity index and low pour point it assures quiet and smooth operation of transmission & hydraulic equipment under all climatic conditions. The fluid is compatible with seal materials, generally used in transmission systems.

APPLICATION
Servo Transmission T 20 / 30 are recommended for use in Torque convertors, transmissions and hydraulic systems fitted on tractors and other farm equipments.

PERFORMANCE BENEFITS
Servo Transmission T 20 / 30
- Provides excellent lubrication for gear box and transmission equipments.
- Ensures long trouble free life of transmission system.
- Minimises formation of sludge and varnish, thus maintains the system clean
- Protects parts against rusting even during idle period.

PERFORMANCE STANDARDS
Servo Transmission T 20 / 30 meets the following specification:
- M/s. Ford ESEN-M2C-134C Specn.

MANUFACTURERS APPROVAL
- M/s. Tractors and Farm Equipments Ltd (TAFE) for combined Transmission Hydraulic Brake and Steering box application.
- M/s. Killick Halco Ltd for well drilling rig for drive axle application.
- M/s. BEML as Axle oil for HEMM.
